

KODAK PRINERGY ON DEMAND

End-To-End Automation

KODAK PRINERGY On Demand is the print industry's first end-to-end software platform, designed to control your entire workflow from first concept to final product.

Automation

Work faster, more consistently and more efficiently

Integration

Eliminates inefficiencies by unifying most third party software and equipment

Production Efficiencies

Achieve consistent and accurate color with every print run by tracking ink usage

Security

Protect your organization from online attacks, backed by Microsoft

Analytics & AI

Proactively identify inefficiencies to unlock opportunities for growth

A Platform For Growth.

KODAK PRINERGY On Demand Platform grows with you. Work entirely in the cloud or choose a hybrid – either way we have options for today that can scale to your tomorrow.

1 KODAK PRINERGY On Demand Workflow

Customize and control your entire print production process.

- Automate every core function from job submission to output
- Eliminate costly errors before they occur
- Consolidate multiple prepress operations into one workflow
- Supports all third-party software and equipment

2 KODAK PRINERGY On Demand Business Solutions

Connect, share and automate across your entire organization with our print-specific, end-to-end solution including MIS/ERP, ecommerce and collaboration tools.

- Print-specific MIS/ERP supports all print segments and applications
- Seamlessly connects and centralizes your data into one workflow, from job quote to invoice
- Enables visibility to all business functions for improved management
- A flexible and scalable solution for organizations of any size

3 KODAK PRINERGY On Demand Access

Unlock the power of PRINERGY On Demand Workflow by connecting the best of our cloud technology to any on-premise workflow or digital press, economically.

- Get up and running quickly with browser-based SaaS solution
- Access PRINERGY's high performance automation tools cost effectively
- Prepares files for any on-premise workflow or digital press
- Eliminates changes to on-premise server and software commitments

More than just workflow

A combination of 20+ productivity software applications and services to drive cost savings and growth for your business.
